The fifth volume of the *Corpus des notes marginales*, long since out of print, was first published by Akademie-Verlag in Berlin, East Germany, in 1994. It was reissued in the *Œuvres complètes de Voltaire Oxford* edition, where the remaining volumes of the ‘Corpus’ (unfinished since 1994) began to be published in 2006. This volume has been made easier to use in the reissue by the addition of running heads and by a new index of Voltaire’s works cited in the notes of the present volume and the four that preceded it. This volume contains an additional piece by Nikolai Kopanev, ‘V. S. Lublinski et le Corpus des notes marginales’.
