Volume 4 of the *Corpus des notes marginales*, long out of print, was first published by Akademie-Verlag in Berlin, in 1988. It was reissued in the *Œuvres complètes de Voltaire* Oxford edition. This volume has been made easier to use in the reissue by the addition of running heads. Reproduced in an appendix is Nicholas Cronk's article, 'Les notes marginales de Voltaire: quel est le lectorat visé?', which appeared in the *Revue Voltaire* 7 (2007).
