The *Précis du siècle de Louis XV* is an account of Voltaire's own world. His sources are the memoirs of leading military or political figures, many known to him personally, the wide range of archives and state papers to which he had access as *historiographe du roi*, what he reads in the press, and what he picks up in conversation. We have moved from Voltaire historian to Voltaire the shrewd eye-witness, writing with vivacity of what he has seen and heard.
